ABOUT ME

Proficient Python Full Stack Developer with strong expertise in building scalable web applications using Java, Spring Boot, and modern front-end frameworks. Adept at delivering end-to-end solutions with a focus on performance, usability, and clean code. Seeking to contribute technical skills and innovative problem-solving to a growth-oriented organization.

WORKS

Upper And Lower Game - The Higher or Lower Game is a simple Python console-based guessing game that tests a player's prediction skills. The program generates random numbers between 1 and 100, and the player guesses whether the next number will be higher or lower than the current one.

Portfolio - Created a Portfolio website for my self to show my skills and also to track my projects which is created by me.
